

OPEN-SOURCE SKILLS FOR YOUR AI AGENT

Here are the Probabl AI Skills

A growing library of open-source machine-learning skills, built by the team behind scikit-learn — ready to plug straight into the AI agent on your computer.

by the scikit-learn founders

QUICK SETUP

You'll need a few things installed first

1. Install an AI agent on your computer. We recommend IBM Bob:

Download IBM Bob
bob.ibm.com/download

2. Add the Probabl skills from your terminal:

TERMINAL

```
$ pip install skore-cli  
$ skore skills install
```

When prompted, **select all the skills** to install the full set.

Free & open-source

Built on the scikit-learn ecosystem

Beginner friendly

Easy to set up and start using

Ready in minutes

One command and you're set

DOCUMENTATION

Find the AI skills documentation

Browse the full skills directory, read the docs, and see what each skill can do for your agent.
